

Chart: Negative-SRS NBA Playoff Teams (84-24)

Nicholas A. Ferrell

I prepared this chart for my article about every NBA team with a negative regular season SRS to make the NBA Playoffs from 1983-84 to 2023-24. See my [full article](#) for more stats and discussion, including an explanation of the overall project.

From left to right, my chart shows the season in question, the team, the team's raw win-loss record, its SRS (all SRS will be negative since that is a selection criterion), the team's conference, and its playoff seed in-conference. QF, SF, CF, and F refer respectively to the playoff Quarterfinals, Semifinals, Conference Finals, and NBA Finals. SF, CF, and F only have values for teams which advanced to those rounds of the playoffs. All teams which advanced out of the Quarterfinals are in bold.
